(a) Total number of wage or salary earners in employment excluding employees in the defence forces at home or abroad and Government "relief" workers. (b) Average earnings per employed male unit. Male units represent total male employment plus a proportion of female employment based on the approximate rates of female to male earnings. Seasonally adjusted. (c) All building operations for which permits granted by Local Government Authorities. Excludes Government buildings (see footnote, page 27). (d) Including owner-built houses. Quarterly averages for years, and quarterly totals. (e) June, 1933; obtained from Census. (f) July, 1939; obtained from National Register.

For meaning of symbols n.a., r, see page 1.

(a) Revised A.C.T. estimates based on Census of Canberra, 14th-16th September, 1951, are as follows:—1948, 19,806; 1949, 21,245; 1950, 23,867.
(b) Census—30th June, 1947

OVERSEA MIGRATION.

Permanent migration refers to persons, other than Australian troops, intending residence for one year or longer—in Australia in the case of arrivals, and abroad in the case of departures. Temporary migration refers to persons intending residence for shorter periods, together with Australian troops from July, 1947 onwards, irrespective of length of intended residence.

Period.	Temporary.				Permanent.		
	Australian Residents.		Visitors from Overseas.		Arrivals.	Australian Residents Departing.	Excess of Arrivals (+) or Departures (-).
	Arriving.	Departing.	Arriving.	Departing.

(a) Estimates based on Pay-roll Tax returns. Excludes National Service trainees in camp. Figures subject to revision.
(b) Includes Northern Territory and Australian Capital Territory.

AVERAGE WEEKLY TOTAL WAGES PAID AND AVERAGE EARNINGS.

The following figures are derived from employment and wages recorded on Pay-Roll Tax returns (which cover approximately 80 per cent. of total employment) and from estimates of the unrecorded balance. Pay of members of the armed forces is not included. The figures are not seasonally adjusted. A seasonally adjusted quarterly index of average weekly wage earnings is published on page 2.

(a) Includes Australian Capital Territory. (b) Includes Northern Territory. (c) Total wages as above divided by total civil employment expressed in male units. Male units equals the number of males plus a proportion of females based on the approximate ratio of female to male earnings. The same ratio has been used in each State and because the average ratio of female to male earnings may vary between States, precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

NOTE.—Comparisons as to trend should be made for complete years or corresponding periods of incomplete years. Quarterly totals and averages are affected by seasonal influences.

UNEMPLOYMENT AND SICKNESS BENEFITS.

Compiled from information furnished by the Department of Social Services on the operation of the Unemployment and Sickness Benefits Act 1944 (from 1st July, 1947, Part VII. of the Social Services Consolidation Act 1947-1953), which came into effect on 1st July, 1945.

TRADE UNION UNEMPLOYMENT RETURNS.

The only records of unemployment available continuously over a long period of years at short intervals are the quarterly percentages reported by trade unions to the Commonwealth Statistician. The membership of the reporting unions consists predominantly of males, and represents at present about 55 per cent. of the total trade union membership and between 25 and 30 per cent. of all wage and salary earners. For some States and some industries the returns are more representative than for others. This table, therefore, should not be read as indicating the relative degree of unemployment amongst unionists in the individual States or industrial groups. It is an indication of trend of unemployment as estimated or recorded by secretaries of those trade unions which supply returns. Returns are not collected from unions whose members are predominantly in permanent employment (Governmental, &c.) or casual employment (wharf labourers, &c.). The percentages relate to unemployment due to all causes except unemployment of those directly involved in industrial disputes.

(Per Cent.)

(a) Prior to July, 1948, included Soups (1948-49 monthly average exports £92,000).
Gold Ingot, Bar, Sheet, Granulated, Dust, &c., and Gold Specie.

(b) Excludes Gold contained in Matte,

For meaning of symbols r, p, see page 1.

EXPORT PRICE INDEXES.

These index-numbers are compiled from the prices of 20 commodities which normally constitute about 80 per cent. of all exports. For some metals and for wheat (from July, 1945 to September, 1951), the index of prices is deduced from average value of current sales or shipments and hence shows some irregularity. From October, 1951, the prices used for wheat are the estimated average realizations after weighting prices of quota and non-quota wheat.

SIMPLE AGGREGATIVE INDEX : FIXED WEIGHTS.

In this index the prices of the commodities are multiplied by the average annual exports (production in the case of gold) during the three years 1933-34 to 1935-36.

(Base of each Section : Average 3 years ended June, 1939 = 100.)

(a) Silver, copper, tin, zinc, lead. (b) Beef, lamb, mutton, pork. (c) Sultanias, lexisias, currants. (d) Cattle hides, calf skins. (e) The price used in the index since 14th December, 1951, is the price of Australian gold on overseas premium markets. (f) For All Groups (including Gold)—applicable from 1936-37. (g) For All Groups (excluding Gold)—applicable from 1936-37. (h) Nominal. (i) Nominal, subject to revision.

For meaning of symbol p, see page 1.

EXPORT PRICE INDEXES—continued.

RECENT TRENDS—EXPORT PRICE INDEX—WOOL AND "OTHER GROUPS".

Reference to the group indexes in the table on page 18 hereof will show the great increases and the wide dispersion of prices of export commodities in recent years. In particular, very great movements upwards and downwards occurred in the price of wool during the twelve months ended June, 1951. Similar, but less marked, movements have occurred in prices of metals and hides. Since wool is a predominant export (with 46 per cent. of the Base Aggregate of the index) fluctuations in wool prices obscure the movements affecting the other components in the All Groups index. For purposes of comparison they are shown separately below.

(Base of each Section : Average 3 years ended June, 1939 = 100.)

(b) Nominal, subject to revision.

MONTH-TO-MONTH INDEX : CHANGING WEIGHTS.

The index-numbers in the two preceding tables, while they indicate satisfactorily the general trend of the market, take no account of the relative quantities actually sold at the different prices ruling during each month. In consequence the index-numbers do not give an adequate indication of the significance of the price movements as they actually affected current sales. This is shown more accurately by the index-numbers (including gold) in the following table, in the computation of which the "quantity-multipliers" are changed each month. The index-numbers are designed solely for comparisons of current prices with those of the corresponding months, or periods of months, of the preceding year.

(Base : Weighted average price level in corresponding months of preceding year = 100.)

Month.	Month stated compared with same month of preceding year.						Period of trade year ending in month stated compared with same period of preceding year.

WHOLESALE PRICE (BASIC MATERIALS AND FOODSTUFFS) INDEX.

Commodities in this index are priced in their primary or basic form wherever possible. The prices used have in the main been obtained directly from manufacturers and merchants, and, with a few important exceptions, from Melbourne sources. Apart from locally-produced building materials and one or two minor commodities, however, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on estimates of the average annual consumption of the commodities in Australia during the years 1928-29 to 1934-35 inclusive.

(Base : Average 3 years ended June, 1939 = 100.)

Period.	Basic Materials.							Food-stuffs and Tobacco.	Basic Materials and Foodstuffs.

(a) Base : Weighted Average Six Capitals (Retail Prices) or Six States (Wages and Hours) Average 3 years ended June, 1939 = 1,000.
 Retail prices index-numbers are for the capital cities. (b) Payable as from the beginning of the first pay period commencing in the second month of the quarter shown. (c) None declared but Federal rates followed to a large extent. (d) Payable as from 28th July. (e) Payable as from 3rd November. (f) Payable as from 27th October. (g) Payable as from 22nd January. (h) Payable as from 27th January. (i) Payable as from 4th May. (j) Payable as from 27th April. (k) Payable as from 3rd August. (l) Payable as from 27th July.

For meaning of symbol ..., see page 1.

PRIMARY PRODUCTION PRICE INDEXES.

The annual index-numbers shown in the following table relate to average "prices" of primary products realized in the principal markets of Australia. The "price" data used are average unit values for the total quantities of the relevant commodities produced or marketed in each year and the index-numbers therefore measure both the effects of changes in prices (as such) and of variations in the quality, type, usage, &c., of products marketed. The index-numbers for any year relate to the average values of primary products produced or marketed in that year, irrespective of the periods in which payment is received by producers.

The Farming Index-numbers shown below are the Revised Series (December, 1952) in which average quantities of each product marketed in the period 1946-47 to 1950-51 have been used as fixed weights.

The preliminary Farming Index-numbers for 1951-52 and 1952-53 are based mainly on the recorded or estimated movement in average values for the major farm products. They will be reviewed from time to time as further "price" data become available.

(Base : Average 3 years ended June, 1939 = 100.)

(a) Year ended previous December. (b) Based on the price fixed by the Commonwealth Bank ; no allowance has been made for premiums on sales of gold for industrial purposes in Australia and overseas.

For meaning of symbol p, see page 1.

SECURITY PRICE INDEXES.

In comparing movements in the two sets of index-numbers on this page, attention should be paid to differences in the methods by which they have been constructed, and in the nature of the companies and the types of shares included in each index. These are outlined in the footnotes to the table.

(a) Compiled by the New South Wales Government Statistician. The index-numbers are based on the prices of the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. They represent unweighted averages of the mean monthly prices per £1 of paid-up capital. Adjustments are made where capital is written off or bonus shares issued. Recomputed from original base, par values. (b) Compiled by the Queensland Bureau of Industry. The index-numbers are based on the prices of the ordinary shares of 21 representative Queensland companies, and the preference shares of three companies whose ordinary shares are inactive. The index-numbers represent unweighted averages. Mean monthly values are used. Recomputed from original base, April, 1928. (c) These shares relate to leading companies and do not include bank shares or mining shares.

(a) Excludes suburbs of Hobart.

NOTE.—Building controls under National Security (Building Control) Regulations operated from 5th December, 1940, becoming most stringent in 1942, when consent was required for all building other than alterations and additions costing less than £25. These controls were progressively relaxed after 1945 and have now virtually ceased to exist, except for minor restrictions in Victoria and Western Australia. For more detailed notes see earlier issues of this publication.

The "value of permits" shown above relates to the value of building permits issued by local government authorities and not to approvals granted under the Regulations.

For meaning of symbol r, see page 1.

BUILDING OPERATIONS : METROPOLITAN AND PROVINCIAL.

(Figures for Government Buildings relate to contracts let or day-labour work commenced. Figures for Private Buildings relate only to Permits issued by Local Government Authorities. Alterations and additions are included.)

(a) Includes sawn sleepers.

(b) Household, commercial and industrial cooking stoves to 1947-48—thereafter household cooking stoves only.

(c) Household, commercial and industrial cooking stoves, ranges, stovettes and cookers to 1944-45—thereafter household cooking stoves only.

(d) In terms of '000 standard square yards to 1944-45, thereafter in terms of '000 selling square yards. A standard square yard contains a given volume of sheet; a selling square yard represents the area covered by the finished sheet regardless of its thickness or corrugation.

(e) Partly estimated.

For meaning of symbols n.a., r, p, — see page 1.

(a) Excludes Northern Territory; also extra-Metropolitan area of Western Australia prior to 1938-39. (b) Prior to 12th November, 1951, primary producers' vehicles registered in Victoria included private cars and commercial vehicles, and were included in commercial vehicle registrations. Since that date, only vehicles constructed for the carriage of goods and used by primary producers solely in connexion with their business are so registered.

For meaning of symbols p, —, see page 1.

GOVERNMENT RAILWAYS : FREIGHT, PASSENGERS AND REVENUE.

The following table shows statistics of freight and passengers carried and of revenue earned on the five Mainland State Railways to the end of June, 1947. From July, 1947, particulars relate to all State and Commonwealth Railway Systems, Tasmania, however, still being excluded in respect of particulars of freight. The daily average number of passenger-journeys is obtained by dividing the monthly totals by the *total* number of days in the month.

Period.	Freight Carried.		Passenger-journeys.	Gross Revenue.	Net Revenue.
	Net Ton-miles.	Average haul per ton.

For meaning of symbol —, see page 1.

WHOLESALE TRADE.

An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. The returns do not relate to all wholesale trade, and exclude sales of vendors trading only in exempt goods. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degree. Insufficient information is available to enable adjustments to be made to the crude figures on this account. Monthly totals are compiled on a basis comparable with the monthly averages for preceding years.

(£ million.)

[illegible]

(a) The rates of tax per cent. were 5 from 22.9.38; 6 from 9.9.39; 8½ from 3.5.40; 5, 10 and 15 on different classes of goods from 22.11.40; 5, 10 and 20 from 30.10.41; 12½ and 25 from 1.5.42; 10 and 25 from 15.11.46; 8½ and 25 from 8.9.49; 8½, 10, 25 and 33½ from 13.10.50; 12½, 20, 25, 33½, 50 and 66½ from 27.9.51; 12½, 20, 33½ and 50 from 7.8.52. From 21.7.43, rationed clothing, &c., were reduced to 7½ per cent. and was exempted from 15.11.46. With certain specified exemptions, all goods sold in Australia, including imports, are taxable. The list of exemptions was extended as from 13.12.38; 26.9.39; and restricted as from 3.6.40, 22.11.40, 30.10.41. As from 1.5.42, 3.7.43, 21.7.43, 8.9.44 there was a partial restoration of former exemptions. As from 13.9.45, 10.4.46, 15.11.46, 20.9.47, 9.9.48, 8.9.49, 13.10.50, and 27.8.51, further former exemptions were restored and additional exemptions granted.

For meaning of symbols \dots , r , p , see page 1.

VALUE OF RETAIL SALES(a) : STATES.

The figures in the tables below relate to the retail sales of goods (as distinct from services, accommodation, entertainments, meals, &c.) by establishments selling retail goods from fixed premises (shops, rooms, kiosks, yards) and include the retail sales of establishments principally engaged in wholesale, manufacturing or servicing activities.

(a) Averages of liabilities and assets on Mondays of period until December, 1946; thereafter averages of liabilities and assets on Wednesdays.
(b) At the beginning of July the General Banking Division opened, in the books of the Central Bank, a special deposit account with a balance approximating the amount that would be required if it were subject to Special Account provisions of the Banking Act 1945-1953. This represents a change in the form of liquid assets which were previously held, predominantly in Treasury Bills.
(c) Between March and July, 1952, certain loans to building societies and credit foncier loans for housing were transferred from the General Banking Division to the Commonwealth Savings Bank in exchange for Government Securities. The reduction in these loans (held by the General Banking Division) over this period was approximately £24,000,000.
(d) Returns for fourth Wednesday not available.

(a) Weighted averages for last Wednesday in month. Calculated, when loans above par, on earliest date of maturity.

(b) Average rate on mortgages registered in three months ending with month shown.

(c) Rate for securities maturing in 2 and 12

years, estimated from rates on securities maturing in 0-5, and 10 or more years, respectively. Figures relate to last Wednesday in month.

(d) From December, 1945 to July, 1952, 1.50% on first £10,000 of deposit; 1.00% on amounts in excess.

(e) The Order made by the Commonwealth Bank under the National Security (Economic Organization) Regulations fixing maximum rates of interest was revoked as at 29th July, 1952.

(a) Excludes business of the Government Insurance Office of New South Wales and the Queensland State Government Insurance Office which operate only in New South Wales and Queensland respectively. Monthly averages for the years 1937 to 1947 are based on annual returns for the financial years of the companies. From 1947-48 the figures have been compiled from monthly returns.

(b) Excludes annuity policies. (c) Includes consideration for annuities.

(d) Includes claims paid on death or maturity, payments made on surrender of policies, annuities and bonuses paid in cash. (e) Excludes advances of premiums.

For meaning of symbols n.a., —, see page 1.
